

Hell FM

MVO: American accent, deep 'radio style' animated voice

HeIIIIIIII ooooooo all you sinners out there... you've tuned into HELL FM, HELL FM, HELL FM – (fading echo). The only station that broadcasts exclusively to the damned... and that was a non stop David Hasselhoff Christmas carol marathon....NICE.

Now don't go away (cos you've go no where to run), and we've got some mind numbing, serotonin sapping specials coming your way like Elevator Classics, Country Church and Piano Accordion hits volumes 1, 2 and 3. Phewww... Now that's hot! And now an all time favourite of mine... Billy Ray Cyrus... Achy Breaky Heart because YOU deserve it.

(Voice over...)

Six Feet Under, The lighter side of death... 9pm Mondays on Nine.
